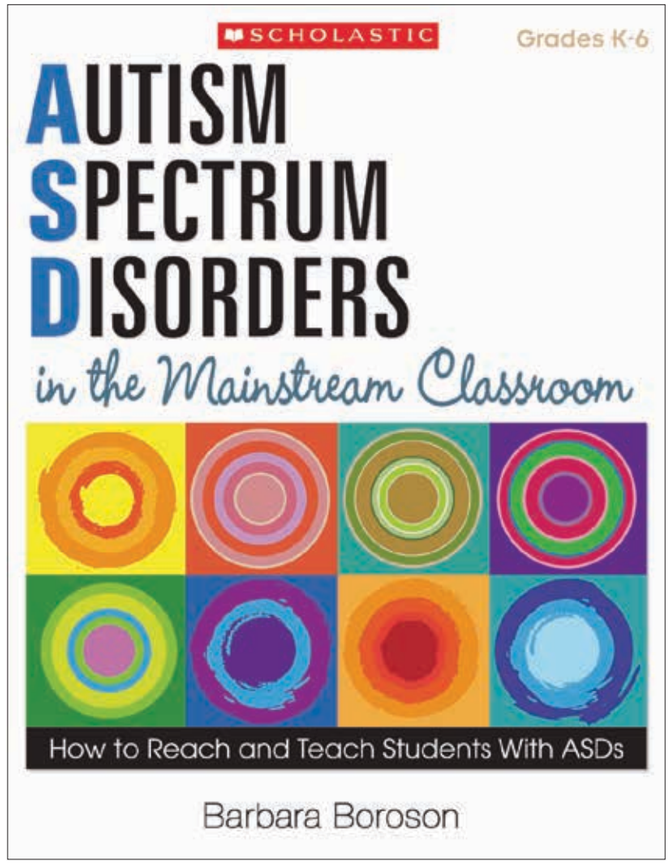
Autism Spectrum Disorders In The Mainstream Classroom

By Barbara Boroson



Description

This engaging and informative book gives you the knowledge you need to understand students with autism spectrum disorders (ASDs) and the strategies you can use to help them succeed in school.

Drawing on her 20 years experience working with students with ASDs, Barbara Boroson guides you through creating a responsive classroom attuned to the needs of your students with ASDs, and she shares preventive strategies that help head off challenging behavior before it becomes disruptive.

She offers suggestions for breaking through to hard-to-reach kids, ideas for collaborating with families, and strategies for differentiating instruction to support every student.

The end goal is a classroom in which all students feel valued and respected, in which all students can learn and grow.

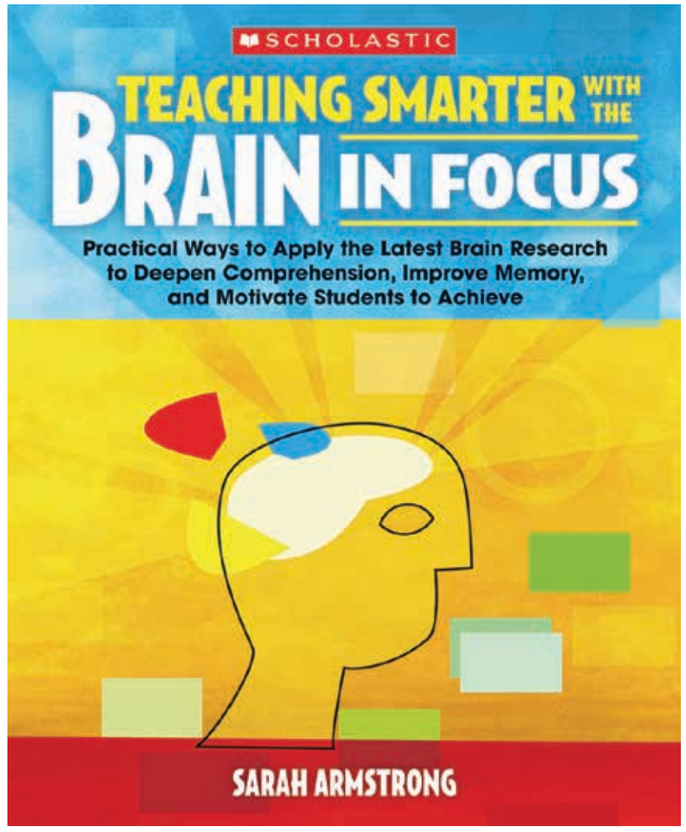
Teaching Smarter With The Brain In Focus

By Sarah Armstrong



Description

Our brains work best under optimal conditions-we think more creatively, we absorb information quickly, and we produce better work. So how do we create those conditions in a classroom setting to help all of our students achieve?

This guide shows teachers how to use simple research-supported strategies in any lesson to improve students' engagement, productivity and capacity to learn.

Among the brain-boosting tools teachers can use are innovative graphic organizers and note-taking techniques, review activities that help students memorize content-area information, questioning tips for improving students' abilities to think critically, and practical ways to differentiate lessons for all learners.

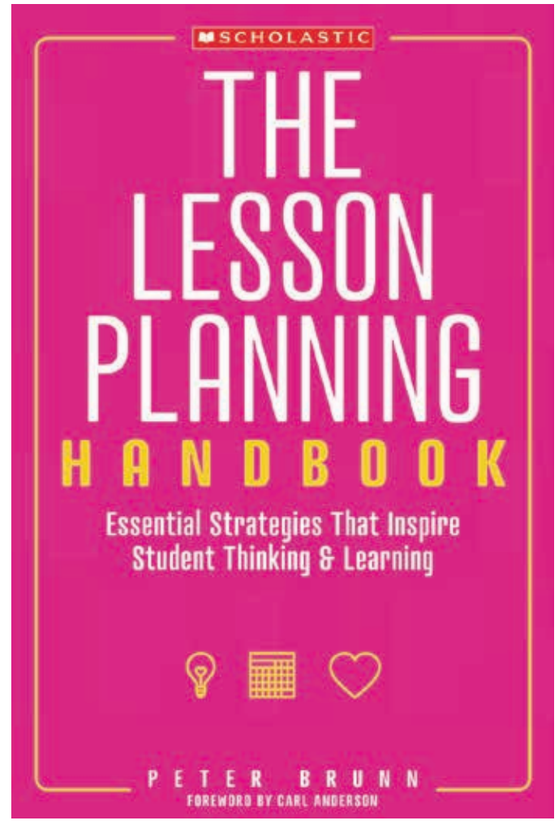
The Lesson Planning Handbook

By Peter Brunn



Description

Great teachers often make teaching look almost effortless but, inevitably, if you look closer, you'll discover their "perfect lessons" are the result of thoughtful planning and strategic organization.

Peter Brunn draws from his own teaching experience as well as years of classroom research with hundreds of teachers across the country to bring you the steps, strategies, and structures successful teachers use to organize and manage their lessons so that you, too, can experience success with every lesson you teach.

Even if you are using a program or mandated curriculum, there are ways to weave in Brunn's findings about effective teaching. Learn how to address the standards while crafting lessons that ignite student thinking, foster student engagement and independent learning, and, in all ways, create a classroom environment that promotes academic success.

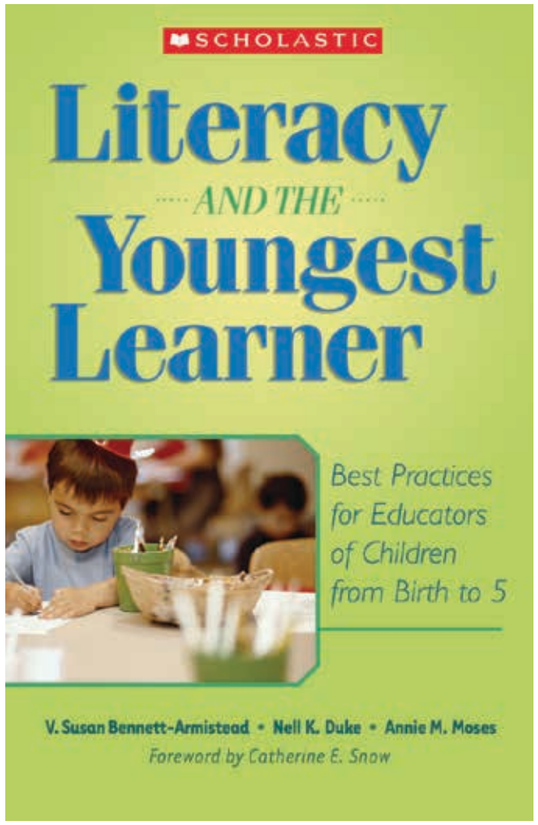
Literacy And The Youngest Learner

By V. Susan Bennett-Armistead, Nell K. Duke and Annie M. Moses



Description

Research shows that literacy - the ability to read, write, listen and speak - begins developing long before children enter elementary school.

From there, it focuses on enjoyable and effective ways to build essential skills, such as oral language and phonemic awareness, and how to create dramatic play areas, books nooks, writing centers and other literacy-rich spaces.

Loaded with photographs, student work and straight talk about kids and learning, Literacy and the Youngest Learner is destined to become a classic.

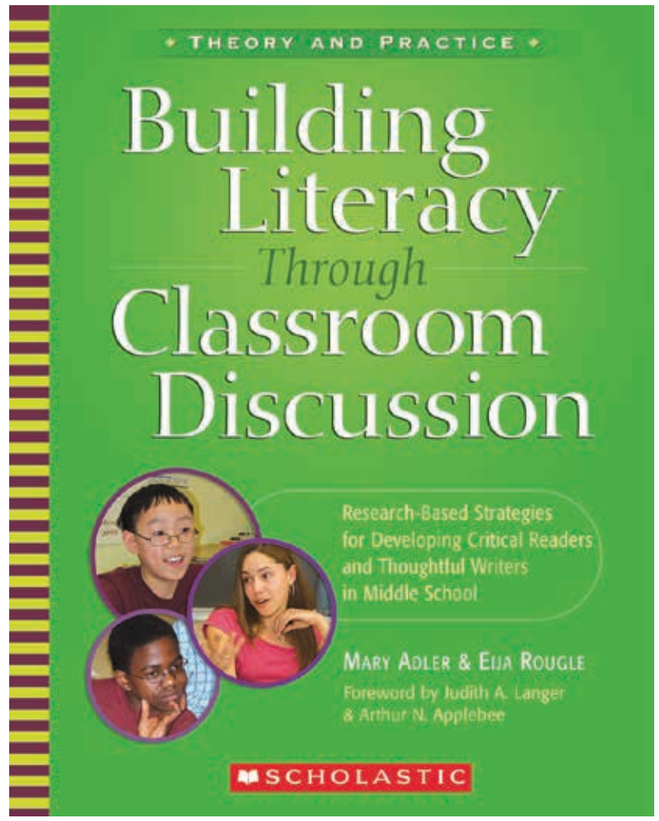
Building Literacy Through Classroom Discussion

By Mary Adler and Eija Rougle



Description

Want to help students achieve greater depth of reading, writing and understanding? This book shows teachers how to facilitate discussions where students share rich, defensible interpretations of literature and solid, reasoned, understandings of any concepts under study.

Based on the authors' extensive research in middle schools, it describes why discussion-based instruction is crucial to achievement, and then shows you how to introduce and sustain discussions.

The authors clearly define the teacher's role and provide lots of successful strategies such as provocative statements and journal jots.

Trouble-shooting sections answer common questions teachers have, such as how to correct a wrong interpretation and how to teach students to build on each other's comments.

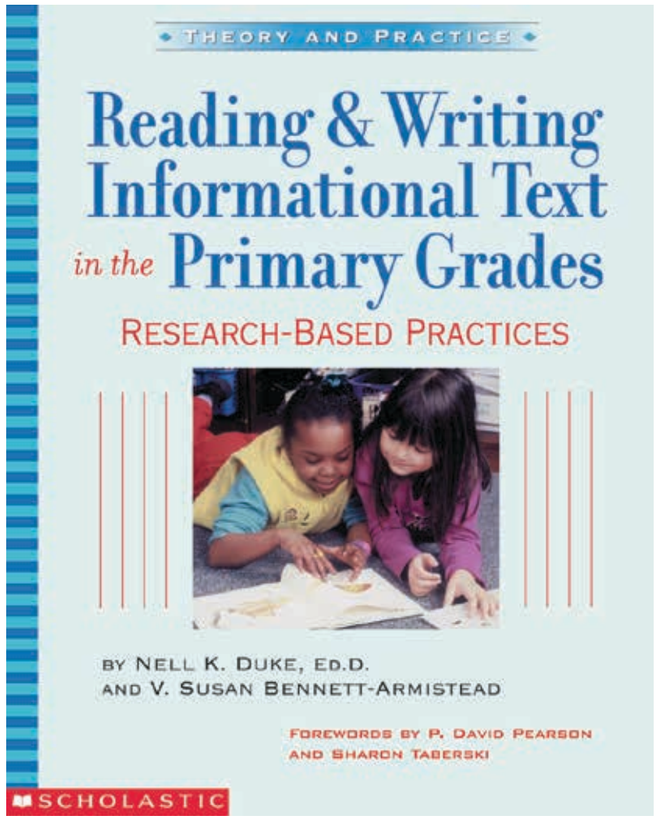
Reading & Writing Informational Text In The Primary Grades

By Nell K. Duke and V. Susan Bennett-Armistead



Description

Increasingly, research supports the importance of teaching children to read and write informational text, but few resources show us how to do it well. This book fills that gap.

The authors explain why it's important to weave informational text into the primary curriculum.

From there, they provide a framework for organizing your time and space, and classroom-tested strategies for incorporating informational text into reading, writing and the content areas.

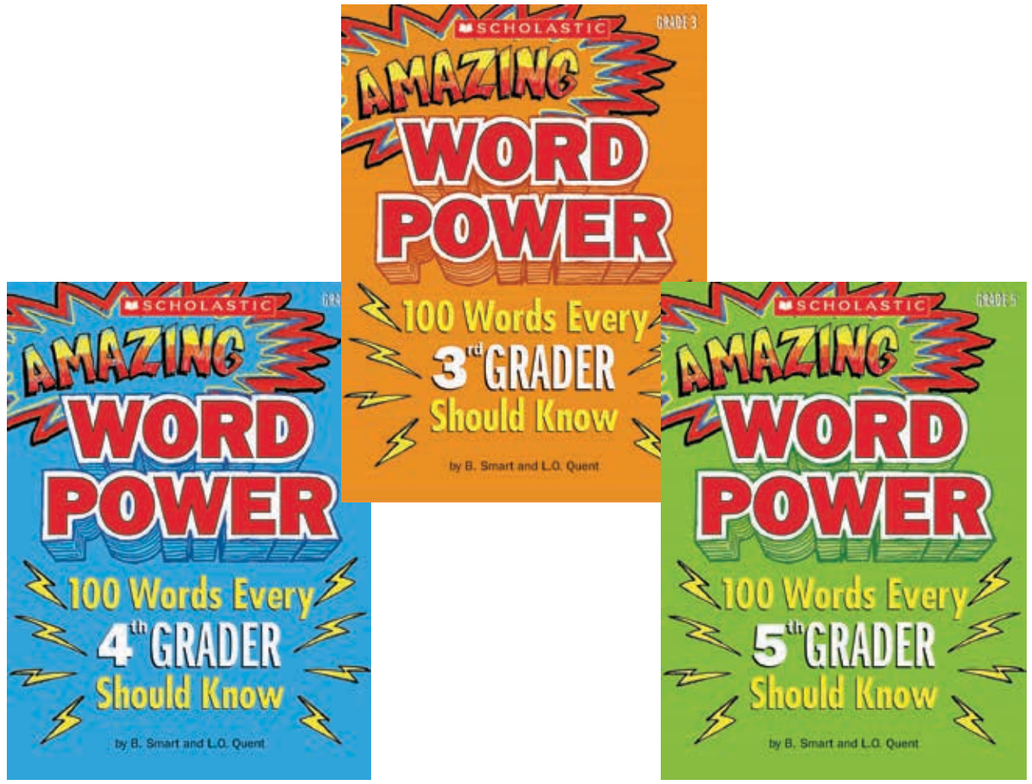
Amazing Word Power Set

By Patrick Daley, Virginia Dooley and Jaime Lucero



Description

For each word, you'll find a simple pronunciation, a kid-friendly definition, an example of how to use the word in a sentence, and a fun illustration that further scaffolds kids' understanding.

Words are presented in groups of five that are linked in some way-for example, words may have related meanings or share the same Latin or Greek root.

Engaging word-building activities give kids the multiple exposures to a word they need to truly "own" each word.

Each book also includes a handy checklist so kids can track their growing word power. Loaded with lively notes and doodles to spark kids' interest!

Contains 3 books from Grade 3 to 5.

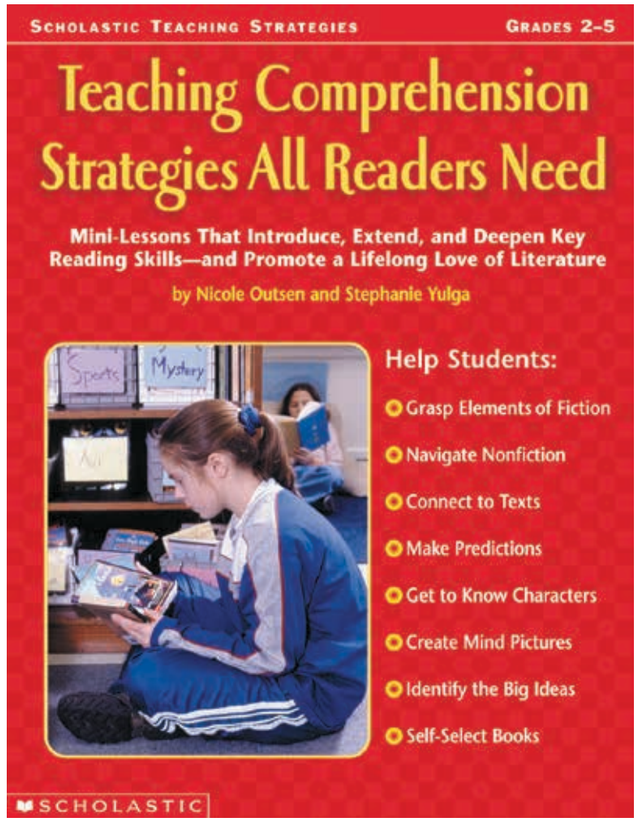
Teaching Comprehension Strategies All Readers Need

By Nicole Outsen and Stephanie Yulga



Description

For students to understand what they read, they need to be taught strategies good readers use.

This book looks at how two gifted teachers do just that. Covers key strategies-such as making predictions, creating mind pictures, identifying big ideas and connecting to texts on many levels.

Each strategy is explored in depth, with mini-lessons for introducing it and deepening students' use of it.

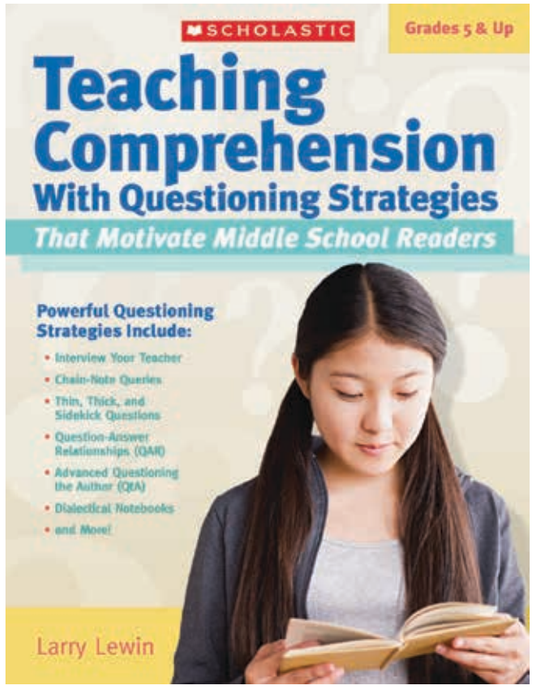
Teaching Comprehension With Questioning Strategies That Motivate Middle School Readers

By Larry Lewin



Description

Literacy expert Larry Lewin shares 12 questioning strategies that boost students' critical thinking and comprehension during and after reading.

Easy to integrate into reading assignments in any content-area, these classroom-tested techniques help students engage in a dialogue with the text they're reading, improve their recall and understanding, and build a strong sense of purpose for reading.

Strategies are scaffolded to provide plenty of instructional support. Students first learn to phrase questions to serve specific reading purposes, such as gathering information, making predictions, and responding to author bias.

As they become more skilled at questioning their texts, students move on to more advanced techniques, such as QAR (Question-Answer Relationship) and QtA (Questioning the Author), which Lewin has specially adapted for middle-school students.

Other features include teacher-student exchanges that demonstrate the strategies in action, step-by-step lessons, student work samples, and assessment ideas.

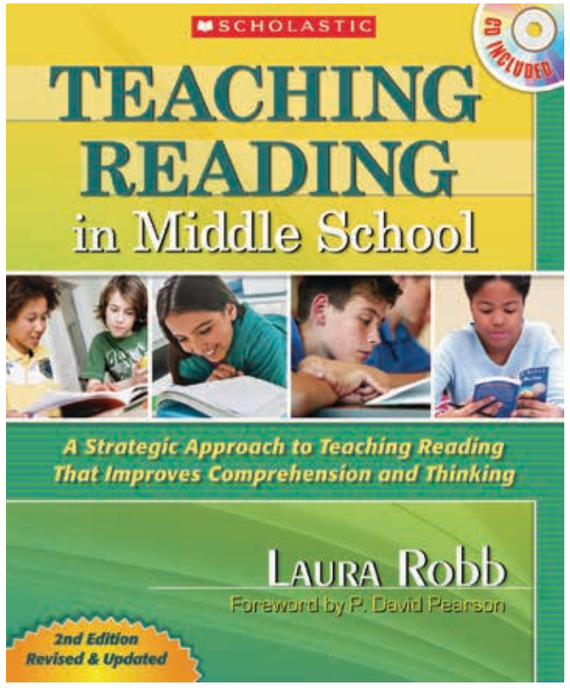
Teaching Reading In Middle School

By Laura Robb



Description

In this completely revised and updated edition of a best-selling classic, master teacher Laura Robb reflects on how her teaching has evolved over the ten years since the book's initial publication.

Drawing on current research and her most recent classroom experiences with students all over the country, Robb presents abundant new material, including fresh literacy vignettes that showcase lessons and learning experiences.

She demonstrates how she has fine-tuned her strategy lessons, focusing on helping students become more aware of why they're doing what they're doing.

She expands her discussion of motivation, differentiation, assessment, classroom management and more - including a whole new chapter on conferring. Robb's passion for helping adolescents become lifelong readers radiates throughout the book, and she offers new insights and innovative ideas for working with students at this critical juncture of their literacy lives.

Includes a CD with forms, charts and more.

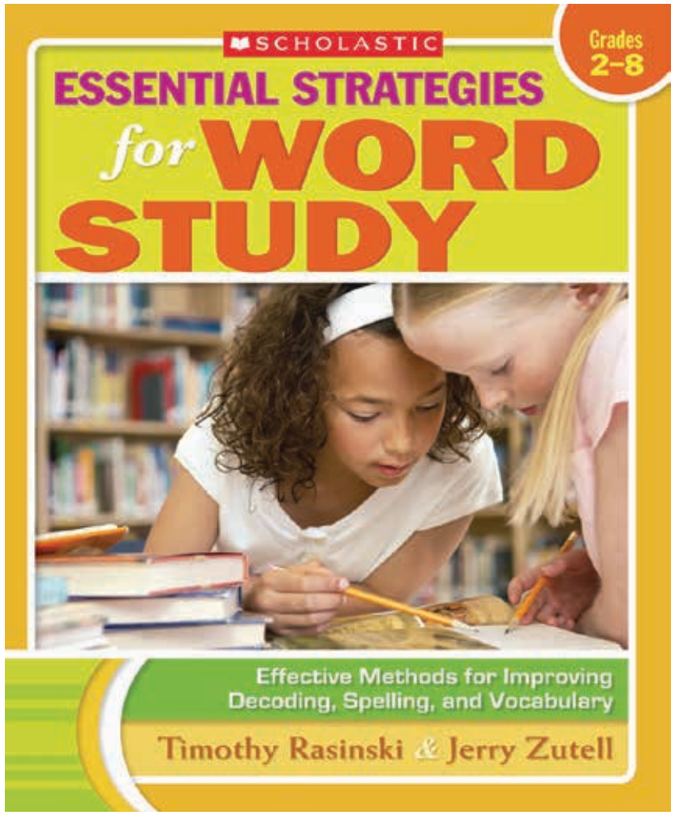
Essential Strategies For Word Study

By Timothy Rasinski and Jerry Zutell



Description

Defining word study as the direct exploration and analysis of words - through phonics, vocabulary, and spelling instruction - the authors maintain that it is most effective when sound, spelling, and meaning are examined simultaneously.

To that end, they offer thirty engaging activities divided into three sections: exploring word structure, examining word meanings, and extending word learning. In this way, word study becomes a fascinating part of the overarching language arts curriculum.

Students learn all about words, inside and out, as they sort and spell, harvest and map, define and design, investigate and analyze, decode and use words—all toward the aim of becoming more effective and efficient readers and writers.

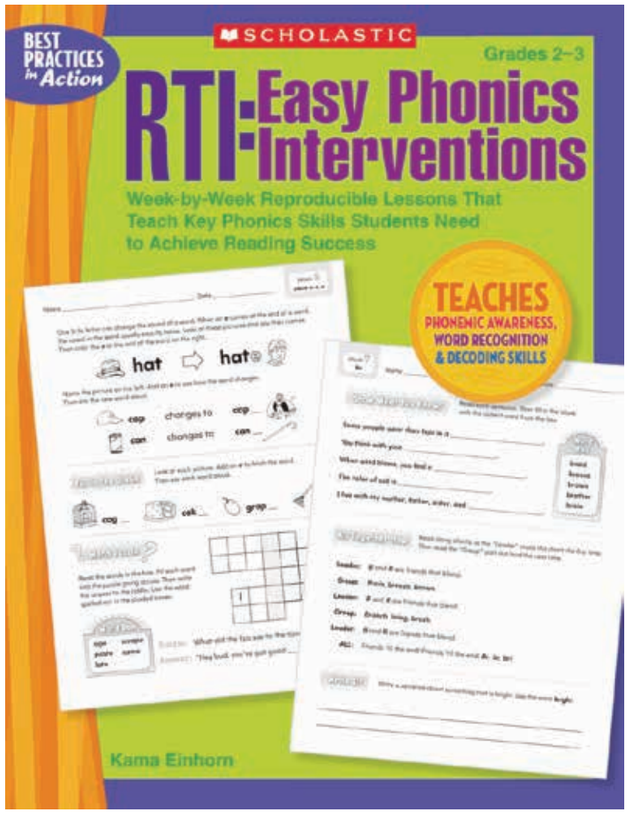
RTI: Easy Phonics Interventions

Teacher Reference

By Kama Einhorn



Description

Reach struggling readers with this 12-week collection of research-based phonics intervention activities - perfect for meeting the requirements of Response to Intervention (RTI) Tier 2.

The approach is simple, quick, flexible and effective. Each two-sided activity sheet targets and teaches a key phonics skill crucial for rapid decoding.

The activities follow a consistent format, providing students with multiple opportunities to practice the skill, apply what they learn - and succeed! Includes a Skills Tracker chart to record students’ progress on daily and weekly assessments.

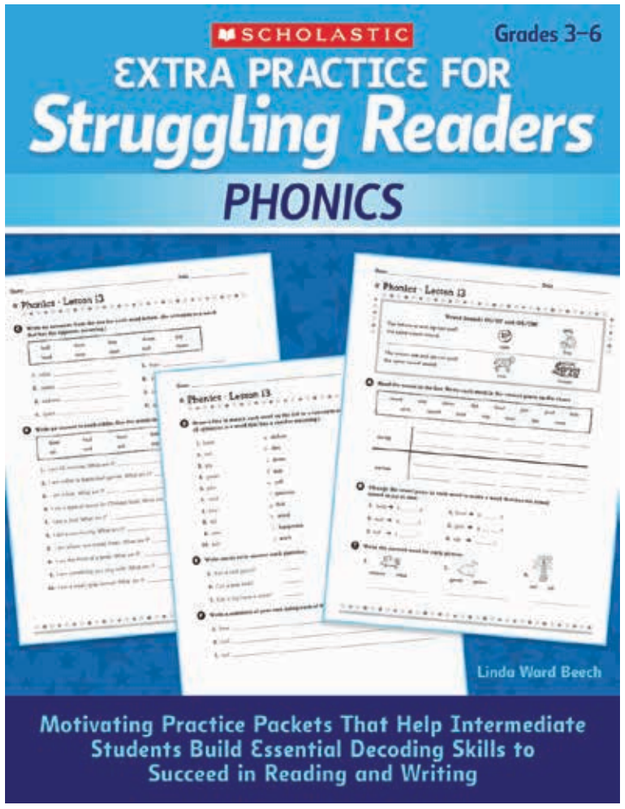
Extra Practice For Struggling Readers: Phonics

By Linda Beech



Description

While phonics instruction is important for all readers, it is essential for older students whose underdeveloped reading skills impede content-area learning.

This resource offers dozens of practice pages that give struggling readers multiple opportunities to recognize, review and reinforce must-know phonics elements, such as consonants, long and short vowels, blends, digraphs and more. With this practice, students dramatically improve their ability to recognize sound-spelling relationships and use these skills to accurately and efficiently decode words, which in turn boosts fluency and comprehension.

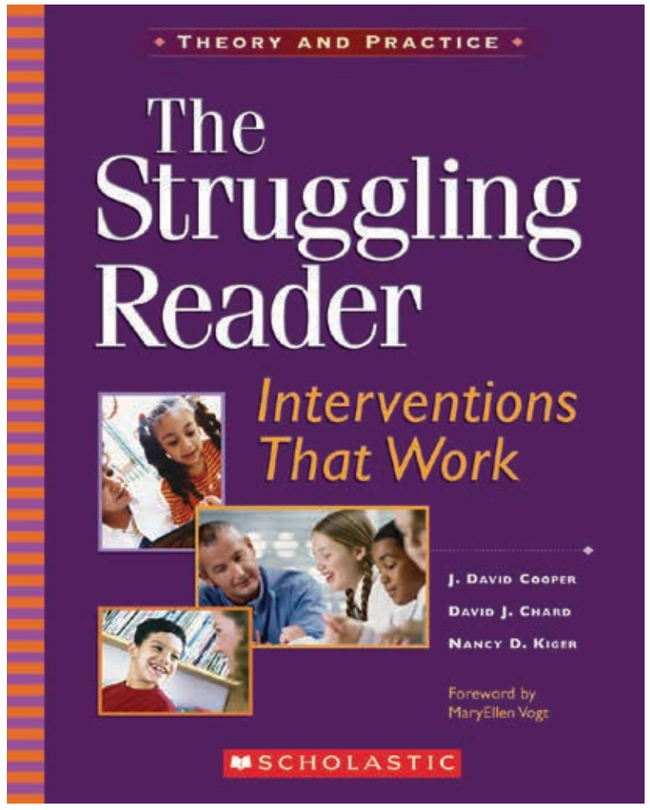
The Struggling Reader: Interventions That Work

By J. David Cooper , David J. Chard and Nancy D. Kiger



Description

Struggling readers need personalized, focused and assessment-driven instruction. In other words, they need interventions that work.

Cooper, Chard and Kiger provide those interventions in this essential resource. Covering the most important aspects of literacy - oral language, phonemic awareness, word recognition, vocabulary, fluency, comprehension and writing.

The authors organize the interventions around a classroom-tested framework for assessing students, diagnosing their needs, teaching them based on findings and reassessing them to determine whether more instruction, practice or application are needed.

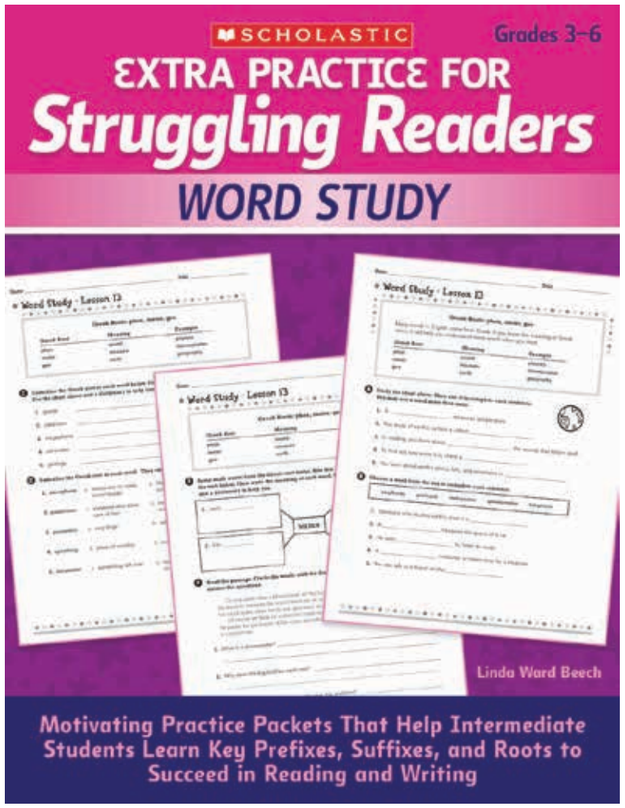
Extra Practice For Struggling Readers: Word Study

By Linda Beech



Description

When successful readers encounter unfamiliar words, they utilize strategies—for example, identifying word parts such as syllables and suffixes—to help them figure out pronunciation and meaning. This resource offers dozens of practice pages that give older struggling readers multiple opportunities to review and apply these word-study skills, recognize common spelling patterns, boost their word recognition and vocabulary development, and gain confidence as they read and encounter new words. As a result, students become more fluent readers.

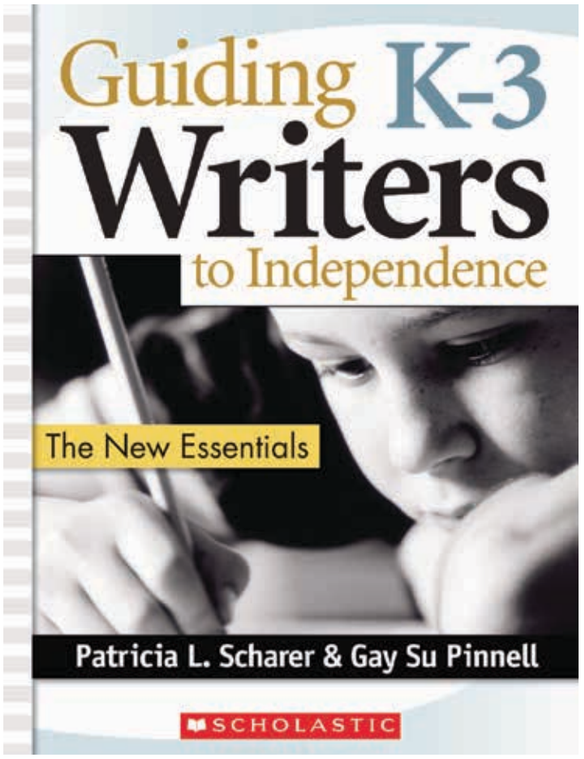
Guiding K–3 Writers To Independence

By Patricia L. Scharer and Gay Su Pinnell



Description

What's the best way to support our youngest writers in classrooms? In this breakthrough book, internationally respected literacy researchers Gay Pinnell and Pat Scharer introduce us to community writing, which centers on the relationship between group writing such as shared and interactive writing and children's own independent writing development.

At the heart of community writing is rich talk about all aspects of the writing process, as well as several other key essentials. The book shows you how to develop:

- How to help your young writers "own" their topics; children write best when their writing is based on authentic topics of their choice-ideas, stories and events that are real for them.
- How to use quality children's literature to support your teaching. The authors demonstrate the importance of reading quality books to children in ways that invite children's thoughts, questions and observations before, during and after the reading. Conversations about books help children learn about the writer's craft.
- How to teach writing all day long - beyond the writer's workshop teach children learn about writing in a range of instructional contexts each day.

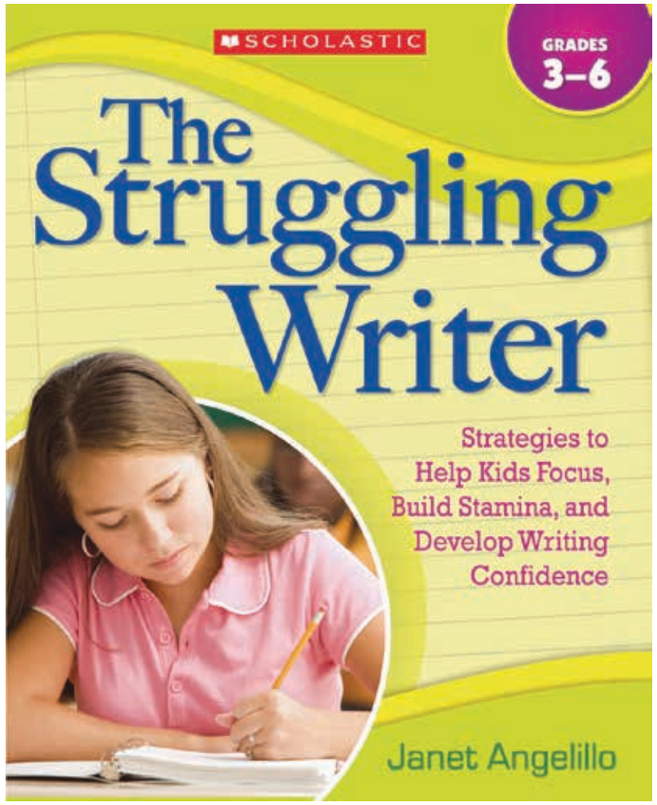
The Struggling Writer

By Janet Angelillo



Description

Struggling writers need personalized, focused and assessment-informed instruction and, to this end, Angelillo shows teachers how to provide their students with three levels of support:

- Self-monitoring strategies that enable students to start writing, build writing stamina, manage their time and stay focused on a topic
- Classroom community resources which create a safe, supportive environment in which to write
- Best practices drawn from writer's workshop including student choice in writing topics, discovering one's voice as a writer, and time out to conference, reflect and assess.

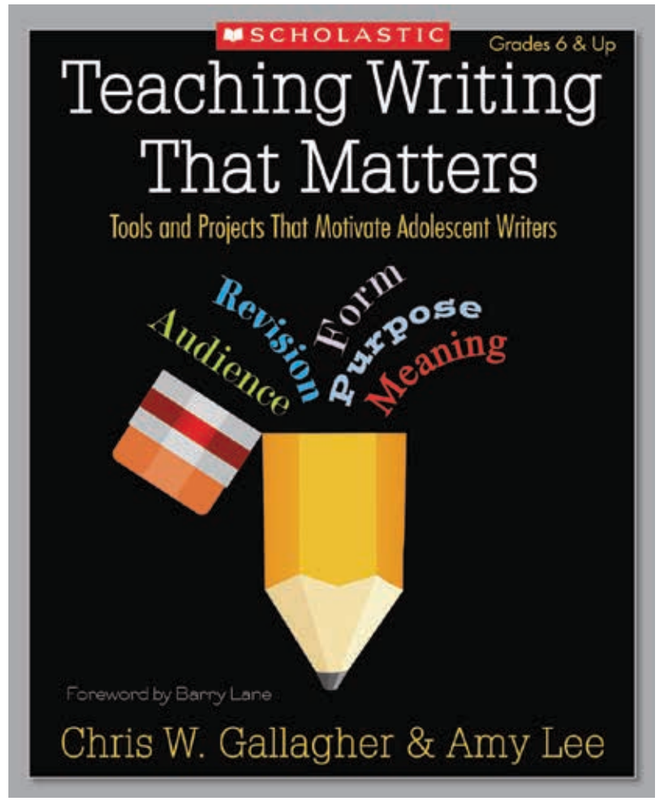
Teaching Writing That Matters

By Chris Gallagher and D. Amy Lee



Description

A new framework for teaching adolescent writing encourages student growth through reflection on writing, purposeful and audience-aware projects, and the support of a writing community.

Includes innovative "project toolboxes" that show teachers how to motivate students to write with confidence and skill from their own experiences, the texts they read, and the research they conduct.

Features classroom-tested projects that focus on major kinds of school writing.

Supports professional learning communities, study groups interested in increasing and improving writing school-wide.

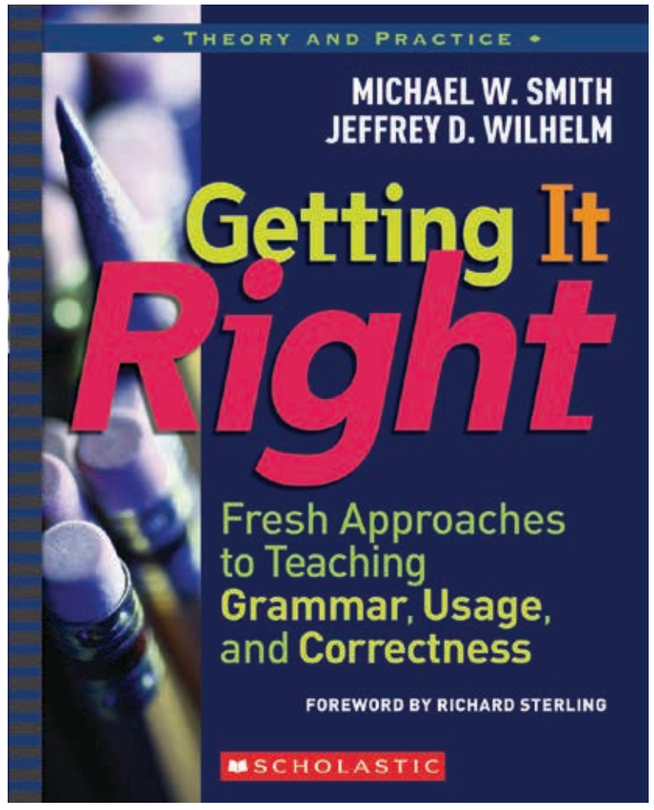
Getting It Right

By Michael W. Smith and Jeffrey Wilhelm



Description

The authors consider what grammatical concepts and correctness issues are most worth teaching and how to teach those concepts and issues deeply.

They explain how to understand the causes of students' errors, how to address those causes through authentic and engaging activities, and how teachers can work together to increase their effectiveness.

They provide both guiding principles and plenty of examples that readers will be able to employ immediately.

EARNING AND USING BONUS POINTS FOR YOUR SCHOOL!

What are Bonus Points?
Every time your students order from Scholastic Book Clubs, you earn valuable Bonus Points for your school. Every RM1 is equivalent to 1 Bonus Point.

Why are Bonus Points so valuable?
Because Bonus Points can be accumulated to redeem for FREE books, equipment and educational models that your school needs most.

How do I know how much Bonus Points my school has?
Scholastic will send you a statement at the beginning of every school term together with the Book Clubs catalog, or you may call 1-300-88-7818 to check on your Bonus Points balance.

Here is how to order!
1. Nominate a School Authorised Person at **Section A**. (What is a School Authorized Person? Scholastic will only allow schools to make redemption if it is done by the nominated Authorised Person of the school. This is to ensure that the Bonus Points are used for the benefit of the school. Therefore, it is important to update us should there be any change to the Authorized Person.)
2. Complete the redemption form at **Section B**.
3. Redemption can be made by either mail, fax or phone.

Here is how to redeem!

REDEEM BY MAIL
Complete the redemption form(s) and mail to:
Scholastic Book Clubs (Customer Service)
Level 7, Plaza First Nationwide,
161, Jalan Tun H.S. Lee, 50000 Kuala Lumpur.

REDEEM BY FAX
Fax redemption form(s) to: **03-2070 1898**.
Please have all your details filled up when sending by fax.

REDEEM BY PHONE
Just call our customer service number at **1-300-88-7818**
Mon–Fri: 9am to 5pm. Phone redemption must be followed by faxing of the redemption form.
