## Chapter 13: Composition

### Page 101

A. *Suggested answers*

The Internet

The Internet is a big network that links computers all across the world. It acts like a giant notice board that displays news and information. We can learn about various subjects. We can also share our learning with others. It is a quick and easy way to connect with family and friends everywhere in just a few seconds. They can also respond right away. The Internet is very useful indeed.
