All About ADHD
By Linda Pfiffner

Linda Pfiffner has revised and updated her best-selling guide to teaching students with ADHD in the mainstream classroom.

She shares research-based, classroom-tested strategies for creating an ADHD-friendly classroom, establishing effective routines, designing lessons that maximize attention, promoting peer acceptance and support, teaching social skills and organizational skills, implementing rules, creating individualized behavior programs, working with parents and documenting progress.

This rich resource will support you as you support your students with ADHD, so that all students in your classroom can experience success.
Autism Spectrum Disorders In The Mainstream Classroom

By Barbara Boroson

This engaging and informative book gives you the knowledge you need to understand students with autism spectrum disorders (ASDs) and the strategies you can use to help them succeed in school.

Drawing on her 20 years experience working with students with ASDs, Barbara Boroson guides you through creating a responsive classroom attuned to the needs of your students with ASDs, and she shares preventive strategies that help head off challenging behavior before it becomes disruptive.

She offers suggestions for breaking through to hard-to-reach kids, ideas for collaborating with families, and strategies for differentiating instruction to support every student.

The end goal is a classroom in which all students feel valued and respected, in which all students can learn and grow.

Teaching Smarter With The Brain In Focus

By Sarah Armstrong

Our brains work best under optimal conditions—we think more creatively, we absorb information quickly, and we produce better work. So how do we create those conditions in a classroom setting to help all of our students achieve?

This guide shows teachers how to use simple research-supported strategies in any lesson to improve students’ engagement, productivity and capacity to learn.

Among the brain-boosting tools teachers can use are innovative graphic organizers and note-taking techniques, review activities that help students memorize content-area information, questioning tips for improving students’ abilities to think critically, and practical ways to differentiate lessons for all learners.
Brain Breaks For The Classroom
By Michelle Gay

Description
40 fun exercises help students take a quick break and return to their work refreshed and ready to learn.

Each exercise is designed to get more oxygen and energy to students' brains, improve their focus and calm their nervous systems. The result: increased motivation, cooperation and learning in the classroom.

Includes a full-color poster with five easy moves all kids can do when they need a “brain break”!

Just-Right Homework Activities For PreK–K

By Deborah Diffily and Charlotte Sassman

Description
Reinforce young children’s learning with 10-minute “family homework” activities that are age-appropriate and fun for both adults and children alike.

Reproducible activity pages give clear directions about how to engage children, play a game or complete an activity, and extend the children’s learning.

Skill-building activities include going on shapes search, echo clapping, reading the calendar, creating ABC collection boxes, taking picture walks and more.

Building Oral Language Skills In Pre K-K

By Cindy Middendorf

Description
Drawing on her 22 years of experience as a kindergarten teacher, Cindy Middendorf has compiled this amazing resource packed with research-based activities, lessons and strategies to increase students’ oral language skills.

She shares rhymes, chants, action stories and songs that kids adore that will hone phonemic awareness and build vocabulary. She demonstrates how to boost oral language use in centers, how to foster social skills through language, and how to encourage language development at home.

Her differentiated approach and classroom-tested ideas will help every student in your classroom to get ready to read.

Teaching Teens And Reaping Results In A Wi-Fi, Hip-Hop, Where-Has-All-The-Sanity-Gone World

By Alan Sitomer

How do you prepare teens for the world filled with jobs, technologies and challenges that don’t even yet exist?

Take a pull-no-punches, inspirational trip inside the classroom of Three-Time Teacher of the Year award winner and celebrated young adult novelist Alan Lawrence Sitomer. Hear stories, discover teaching tools and gain insights straight from the private file cabinet of his high school classroom.

---

The Lesson Planning Handbook

By Peter Brunn

Great teachers often make teaching look almost effortless but, inevitably, if you look closer, you’ll discover their “perfect lessons” are the result of thoughtful planning and strategic organization.

Peter Brunn draws from his own teaching experience as well as years of classroom research with hundreds of teachers across the country to bring you the steps, strategies, and structures successful teachers use to organize and manage their lessons so that you, too, can experience success with every lesson you teach.

Even if you are using a program or mandated curriculum, there are ways to weave in Brunn’s findings about effective teaching. Learn how to address the standards while crafting lessons that ignite student thinking, foster student engagement and independent learning, and, in all ways, create a classroom environment that promotes academic success.
Research shows that literacy - the ability to read, write, listen and speak - begins developing long before children enter elementary school.

From there, it focuses on enjoyable and effective ways to build essential skills, such as oral language and phonemic awareness, and how to create dramatic play areas, books nooks, writing centers and other literacy-rich spaces.

Loaded with photographs, student work and straight talk about kids and learning, Literacy and the Youngest Learner is destined to become a classic.

Want to help students achieve greater depth of reading, writing and understanding? This book shows teachers how to facilitate discussions where students share rich, defensible interpretations of literature and solid, reasoned understandings of any concepts under study.

Based on the authors’ extensive research in middle schools, it describes why discussion-based instruction is crucial to achievement, and then shows you how to introduce and sustain discussions.

The authors clearly define the teacher’s role and provide lots of successful strategies such as provocative statements and journal jots.

Trouble-shooting sections answer common questions teachers have, such as how to correct a wrong interpretation and how to teach students to build on each other’s comments.
### Essential Kindergarten Assessments For Reading, Writing, And Math

By Laurie B. Fyke

A complete toolkit for assessing kindergarten students’ progress in language arts and math. Simple, ready-to-go evaluation sheets follow a month-by-month learning expectations grid to ensure that all kindergarten learning objectives are covered. Support materials include record-keeping forms to keep assessment data organized and send-home learning activities to reinforce targeted skills.

### 25 Quick Formative Assessments For A Differentiated Classroom

By Judith Dodge

This collection of quick, flexible, informal assessments helps teachers take a snapshot of student learning at any time during a lesson or unit of study, in any curriculum area.

Students’ responses give teachers a clear picture of what students know and what they need help with, what material to reteach or extend, and how to pace instruction.

Designed to engage a range of learning styles and skills, the assessments come with an easy step-by-step plan, grade-level modifications, tiering tips and student samples.

Also includes 17 customize-and-print assessment forms on a CD.

Reading & Writing Informational Text In The Primary Grades

By Nell K. Duke and V. Susan Bennett-Armistead

Description

Increasingly, research supports the importance of teaching children to read and write informational text, but few resources show us how to do it well. This book fills that gap.

The authors explain why it’s important to weave informational text into the primary curriculum.

From there, they provide a framework for organizing your time and space, and classroom-tested strategies for incorporating informational text into reading, writing and the content areas.

By Timothy Rasinski

Description

Tim Rasinski’s groundbreaking book has been updated to include coverage of the latest research on fluency, teaching strategies based on that research, new classroom vignettes, and suggestions for using a variety of texts to teach fluency such as poetry, speeches, and monologues and dialogues.

You’ll also find background information, assessment tools, step-by-step lessons and teaching tips - plus a DVD with clips showing the strategies in action.

Amazing Word Power Set
By Patrick Daley, Virginia Dooley and Jaime Lucero

For each word, you’ll find a simple pronunciation, a kid-friendly definition, an example of how to use the word in a sentence, and a fun illustration that further scaffolds kids’ understanding.

Words are presented in groups of five that are linked in some way—for example, words may have related meanings or share the same Latin or Greek root.

Engaging word-building activities give kids the multiple exposures to a word they need to truly “own” each word.

Each book also includes a handy checklist so kids can track their growing word power. Loaded with lively notes and doodles to spark kids’ interest!

Contains 3 books from Grade 3 to 5.

Teaching Comprehension Strategies All Readers Need
By Nicole Outsen and Stephanie Yulga

For students to understand what they read, they need to be taught strategies good readers use.

This book looks at how two gifted teachers do just that. Covers key strategies such as making predictions, creating mind pictures, identifying big ideas and connecting to texts on many levels.

Each strategy is explored in depth, with mini-lessons for introducing it and deepening students’ use of it.
Teaching Comprehension With Questioning Strategies That Motivate Middle School Readers
By Larry Lewin

Literacy expert Larry Lewin shares 12 questioning strategies that boost students’ critical thinking and comprehension during and after reading.

Easy to integrate into reading assignments in any content-area, these classroom-tested techniques help students engage in a dialogue with the text they’re reading, improve their recall and understanding, and build a strong sense of purpose for reading.

Strategies are scaffolded to provide plenty of instructional support. Students first learn to phrase questions to serve specific reading purposes, such as gathering information, making predictions, and responding to author bias.

As they become more skilled at questioning their texts, students move on to more advanced techniques, such as QAR (Question-Answer Relationship) and QDA (Questioning the Author), which Lewin has specially adapted for middle-school students.

Other features include teacher-student exchanges that demonstrate the strategies in action, step-by-step lessons, student work samples, and assessment ideas.

Reading Strategies That Work
By Laura Robb

Transform students from reluctant to effective, independent readers with strategies modeled in this practical book.

Topics include making predictions, pause-think-retell, think-alouds, word-association webs, guess-and-adjust, and more. A mini-lesson accompanies each strategy.
### Teaching Reading In Middle School

**By Laura Robb**

In this completely revised and updated edition of a best-selling classic, master teacher Laura Robb reflects on how her teaching has evolved over the ten years since the book’s initial publication.

Drawing on current research and her most recent classroom experiences with students all over the country, Robb presents abundant new material, including fresh literacy vignettes that showcase lessons and learning experiences.

She demonstrates how she has fine-tuned her strategy lessons, focusing on helping students become more aware of why they’re doing what they’re doing.

She expands her discussion of motivation, differentiation, assessment, classroom management and more - including a whole new chapter on conferring. Robb’s passion for helping adolescents become lifelong readers radiates throughout the book, and she offers new insights and innovative ideas for working with students at this critical juncture of their literacy lives.

Includes a CD with forms, charts and more.

### Essential Strategies For Word Study

**By Timothy Rasinski and Jerry Zutell**

Defining word study as the direct exploration and analysis of words - through phonics, vocabulary, and spelling instruction - the authors maintain that it is most effective when sound, spelling, and meaning are examined simultaneously.

To that end, they offer thirty engaging activities divided into three sections: exploring word structure, examining word meanings, and extending word learning. In this way, word study becomes a fascinating part of the overarching language arts curriculum.

Students learn all about words, inside and out, as they sort and spell, harvest and map, define and design, investigate and analyze, decode and use words—all toward the aim of becoming more effective and efficient readers and writers.

Long an advocate of frequent, voluminous reading in schools, the author draws on evidence gathered in twenty years of classroom teaching to make the case for reading workshop more powerful than ever.

The book establishes the top ten conditions for making engaged classroom reading possible for students at all levels and provides the practical support and structures necessary for achieving them.

Organized by genre (picture books, traditional literature, modern fantasy, historical fiction, realistic fiction, poetry and nonfiction), this book places quality children’s literature at the heart of literacy teaching.

The authors define each genre and its values for use with students identify exemplary texts and provide practical, engaging research-based lessons that teach specific literacy strategies and skills to both primary and intermediate grade students.
Word Family Trees

Kids will have fun filling up these adorable “word family trees” with words containing more than 50 must-know phonograms.

Each reproducible activity page provides repeated practice in building words containing a target word family. Research shows that recognizing and using phonograms helps children develop phonemic awareness of rhyming words and improves decoding and spelling skills.

Perfect for in-class use or homework.

Extra Practice For Struggling Readers: Phonics

By Linda Beech

Description

While phonics instruction is important for all readers, it is essential for older students whose underdeveloped reading skills impede content-area learning.

This resource offers dozens of practice pages that give struggling readers multiple opportunities to recognize, review and reinforce must-know phonics elements, such as consonants, long and short vowels, blends, digraphs and more. With this practice, students dramatically improve their ability to recognize sound-spelling relationships and use these skills to accurately and efficiently decode words, which in turn boosts fluency and comprehension.

The Struggling Reader: Interventions That Work

By J. David Cooper, David J. Chard and Nancy D. Kiger

Description

Struggling readers need personalized, focused and assessment-driven instruction. In other words, they need interventions that work.

Cooper, Chard and Kiger provide those interventions in this essential resource. Covering the most important aspects of literacy - oral language, phonemic awareness, word recognition, vocabulary, fluency, comprehension and writing.

The authors organize the interventions around a classroom-tested framework for assessing students, diagnosing their needs, teaching them based on findings and reassessing them to determine whether more instruction, practice or application are needed.

Extra Practice For Struggling Readers: Word Study

By Linda Beech

When successful readers encounter unfamiliar words, they utilize strategies—for example, identifying word parts such as syllables and suffixes—to help them figure out pronunciation and meaning. This resource offers dozens of practice pages that give older struggling readers multiple opportunities to review and apply these word-study skills, recognize common spelling patterns, boost their word recognition and vocabulary development, and gain confidence as they read and encounter new words. As a result, students become more fluent readers.

Guiding K–3 Writers To Independence

By Patricia L. Scherer and Gay Su Pinnell

What's the best way to support our youngest writers in classrooms? In this breakthrough book, internationally respected literacy researchers Gay Pinnell and Pat Scherer introduce us to community writing, which centers on the relationship between group writing such as shared and interactive writing and children's own independent writing development.

At the heart of community writing is rich talk about all aspects of the writing process, as well as several other key essentials. The book shows you how to develop:

- How to help your young writers "own" their topics; children write best when their writing is based on authentic topics of their choice—ideas, stories and events that are real for them.
- How to use quality children's literature to support your teaching. The authors demonstrate the importance of reading quality books to children in ways that invite children's thoughts, questions and observations before, during and after the reading. Conversations about books help children learn about the writer's craft.
- How to teach writing all day long - beyond the writer's workshop teach children learn about writing in a range of instructional contexts each day.

The Struggling Writer
By Janet Angelillo

Struggling writers need personalized, focused and assessment-informed instruction and, to this end, Angelillo shows teachers how to provide their students with three levels of support:
- Self-monitoring strategies that enable students to start writing, build writing stamina, manage their time and stay focused on a topic
- Classroom community resources which create a safe, supportive environment in which to write
- Best practices drawn from writer’s workshop including student choice in writing topics, discovering one’s voice as a writer, and time out to conference, reflect and assess.

Teaching Writing That Matters
By Chris Gallagher and D. Amy Lee

A new framework for teaching adolescent writing encourages student growth through reflection on writing, purposeful and audience-aware projects, and the support of a writing community.

Includes innovative “project toolboxes” that show teachers how to motivate students to write with confidence and skill from their own experiences, the texts they read, and the research they conduct.

Features classroom-tested projects that focus on major kinds of school writing.

Supports professional learning communities, study groups interested in increasing and improving writing school-wide.
Writing Extraordinary Essays: Every Middle Schooler Can!

By David Lee Finkle

Description
Turn unmotivated students into eager and accomplished essay writers!

Using his own original comic strips to engage students, the author demonstrates a variety of ways to teach students how to organize an essay, create vivid details, make effective word choices, and revise and proofread effectively.

Includes rubrics to set clear expectations as well as sample essays that serve as models for students.

Getting It Right

By Michael W. Smith and Jeffrey Wilhelm

Description
The authors consider what grammatical concepts and correctness issues are most worth teaching and how to teach those concepts and issues deeply.

They explain how to understand the causes of students’ errors, how to address those causes through authentic and engaging activities, and how teachers can work together to increase their effectiveness.

They provide both guiding principles and plenty of examples that readers will be able to employ immediately.

Cross-Section Volcano Model

Description
Include hands-on model in Earth science centers to teach the names and functions of major parts.
Highlights the sill, vent, strata, conduit, dike, crust, upper mantle, magma chamber and lower mantle with labels on one half of the model.
Features parts labeled with letters only on second half for self-checking or assessment.
Offers facts about each labeled part, plus reproducible diagram in activity guide.
Realistically detailed composite [strato] volcano measures 5" in diameter x 5"H and is made of soft foam.

**Read & Understand Box Set**

Description:
Many children can read every word of a story, yet still struggle to understand its meaning. That's where this breakthrough series comes in!

These lively books contain special “think-aloud” prompts that challenge children to predict, visualize, infer, connect, question and more deeply understand a story's meaning.

Research shows that teaching kids to reflect meaningfully on stories helps them develop instant comprehension skills they can apply to everything they read.

Includes:
- 60 books (12 titles; 5 copies each title; 16 pages each)
- 32-page teaching guide filled with lessons, strategies and reproducibles to reinforce learning
- Sturdy storage unit

**School Level**: Primary

**Promethean ActivBoard**

- An interactive whiteboard designed by teachers, for teachers.
- Made with a solid screen, Activboard is resilient as it is durable with specially designed electromagnetic grid which will remain unaffected by any screen damage.
- Comes with two battery-less, wire-free Activpens that write exactly like pens with the added functionality of a mouse, wall-mount brackets and award-winning Activsoftware, either Activprimary or Activstudio (depending on functionality and school needs).
- Installation of delivery cost not included.
- Unit does not come with a projector.
- Promethean ActivBoard product demonstration is available upon request.
- Terms and conditions apply.

**SMART Board**

- Facilitate differentiated learning in your classrooms with this interactive whiteboard that has unparalleled image quality, precise touch experience and a large interactive surface for teaching and learning.
- You can write with a pen, erase with your palm and move objects around your finger without having to access other tools, buttons or on-screen menus.
- The hard-coated polyester surface is tear proof, optimized for projection, compatible with dry-erase markers and is easily cleaned with whiteboard cleaner.
- Comes with carrying case for SMART Board, table top stand, wall mount kit, SMART Board software suite Version 10, a set of stylus pens and eraser, and USB cable.
- Installation of delivery cost not included.
- Unit does not come with a projector.
- Smart Board product demonstration is available upon request.
- Terms and conditions apply.

**EARNING AND USING BONUS POINTS FOR YOUR SCHOOL!**

What are Bonus Points?

Every time your students order from Scholastic Book Clubs, you earn valuable Bonus Points for your school. Every RM1 is equivalent to 1 Bonus Point.

Why are Bonus Points so valuable?

Because Bonus Points can be accumulated to redeem for FREE books, equipment and educational models that your school needs most.

How do I know how much Bonus Points my school has?

Scholastic will send you a statement at the beginning of every school term together with the Book Clubs catalog, or you may call 1-300-88-7818 to check on your Bonus Points balance.

Here is how to order!

1. Nominate a School Authorized Person at Section A. (What is a School Authorized Person? Scholastic will only allow schools to make redemption if it is done by the nominated Authorized Person of the school. This is to ensure that the Bonus Points are used for the benefit of the school. Therefore, it is important to update us should there be any change to the Authorized Person.)
2. Complete the redemption form at Section B.
3. Redemption can be made by either mail, fax or phone.

**Here is how to redeem!**

**REDEEM BY MAIL**

Complete the redemption form(s) and mail to: Scholastic Malaysia P. O. Box 12174, 50768 Kuala Lumpur.

**REDEEM BY FAX**

Fax redemption form(s) to: 03–2070 1898. Please have all your details filled up when sending by fax.

**REDEEM BY PHONE**

Just call our customer service number at 1-300-88-7818 Mon–Fri: 9am to 5pm. Phone redemption must be followed by faxing of the redemption form.
